BULLETIN NO. M50-17

INSTRUCTIONS

Part Number	Application
303GB5102X	MODEL SS338M for Compressor Mounted Power Steering
303GB5110X	MODEL SS338M
303GB5107X	MODEL SS296M for Compressor Mounted Power Steering
303GB5111X	MODEL SS296M
303GB5115X	MODEL QE338M for Compressor Mounted Power Steering
303GB5116X	MODEL QE296M for Compressor Mounted Power Steering
303GB5117X	MODEL QE338M
303GB5118X	MODEL QE296M
303GB5119X	MODEL QE296R for E5 Engines
303GB5120X	MODEL QE338R for E5 Engines
303GB5121X	MODEL HD650M Heavy Duty Application
303GB5128X	MODEL HD650M for E-Tech Engines - Heavy Duty Application

Features:

Remanufactured cylinder, crankshaft and connecting rod. New rings, valves, springs, bushings, seals and gaskets. Assembled units are dynamically tested to original specifications to insure proper flow, pressure and sealing. All compressor kits come with drive coupling and mounting gasket.

Ordering Instructions:

Place orders direct with the Distribution Center serving your area.

Freight:

Freight on remanufactured Holset air compressors is prepaid outbound from the REMACK Center **only** (Contiguous USA). Freight coming from the distribution centers is subject to their freight policies. Return cores as part of 500 lbs. collect policy.

Approximate Weight:

49 lbs.

Core returns:

Refer to REMACK® Component Core Return Policy on page M50-1-2.

Core returns must be sent back on an ST26 Return Form. Core returns should be sent to REMACK Center, 2800 Commerce Drive, Middletown, PA 17057 **1-(800)-5RE-MACK**. Core is subject to a visual external inspection. Missing or damaged pieces will be debited at Dealer Net prices.

Core Grouping:

(All cores are interchangeable)
