**MACK REMANUFACTURED INJECTION PUMP
NOZZLE & HOLDER ASSEMBLIES INSTRUCTIONS** *(continued)*

BULLETIN M50-7

Features:

All Mack Remanufactured nozzles are completely disassembled, cleaned and inspected then assembled with new nozzle tips and pressure set to OEM specification. All nozzles are packaged in single package quantity for our customers' convenience. Nozzles come with new felt dust cover gasket, new compression gasket and fuel return line gaskets.

Ordering Instructions:

Place orders directly with the distribution center serving your area.

Core Returns:

Refer to Mack Remack® Component core Return Policy on page **M50-1-2**.

Like-for-like core returns are necessary in order to receive full credit.

Approximate Weight:

1.2 lbs.

Freight:

Freight on injection pump nozzles is prepaid outbound from the REMACK Center **only** (contiguous USA). Freight coming from the distribution centers is subject to their freight polices.

Injection pump nozzles can be returned with other component parts including Remanufactured Carriers and Remanufactured Transmissions to meet the 500 lbs. Freight collect.
