

REMACK®

REMANUFACTURED OIL COOLERS

BULLETIN NO. M50-12

APPLICATIONS & INSTRUCTIONS

Part Number	Application
312GB367CP2X	E6 Mack Engines
312GB3100MX	All E7 and also E-TECH Engines with bundle type coolers. (services 312GB3100AM)

Features:

Completely remanufactured oil cooler bundle and housing assembly.

Units are assembled after being fully inspected and pressure tested to insure proper sealing.

All remanufactured oil cooler assemblies include inlet and outlet "O" rings, cover gaskets, and water pump flange gasket.

Ordering Instructions:

Place orders direct with the Distribution Center serving your area.

Weight:

22 lbs.

Freight:

Freight on remanufactured oil coolers is prepaid outbound from the Reman Centers **only** (Contiguous USA). Freight coming from the distribution centers is subject to their freight policies. Return as part of 500 lbs. collect policy.

Core returns:

Refer to Mack Remack® Component Core Return Policy on page M50-1-2.

Cores must be sent back on an ST26 Return Form. Core returns should be sent to the Mack Remanufacturing Center, 2800 Commerce Drive, Middletown, PA 17057 **1-(800)-5RE-MACK**.

NOTE: Only like-for-like cores will be accepted.

All remanufactured oil cooler assemblies are of the removable bundle type — solid bundle (non-removable core) oil coolers and E-TECH "plate" type coolers will not be accepted for core credit.

No core credit will be issued for damaged oil cooler bundles. Do not disassemble your oil cooler assemblies to insure no damage will occur in handling. Cracked oil cooler housings will be debited at dealer Net.
